

How fill out a notification form for gonorrhoea infections

Go to website https://surv.esr.cri.nz/public_health_surveillance/sti_surveillance.php

Which takes you to the page below

The screenshot shows the 'Public Health Surveillance' website. The header includes the logo for Public Health Surveillance (Information for New Zealand Public Health Action), the ESR logo (Science for Communities), and the Ministry of Health logo (MANATU HAORA). The page title is 'Surveillance of Sexually Transmitted Infections' and the date is 'Thursday 20th December 2018'. On the left is a 'SITE CONTENTS' menu with links to Home, Public Health Surveillance, Notifiable diseases, Outbreaks, Sexually transmitted infections (highlighted), Influenza viruses, Respiratory, enteric and herpes viruses, Surveillance Reports, EpiSurv, LabSurv, Antimicrobial Resistance, Virological Surveillance, Enteric Reference Laboratory, Environmental Health Indicators, EARS, Links To Other Sites, and Contact Us. The main content area is titled 'Surveillance of Sexually Transmitted Infections' and contains the following text: 'ESR undertakes STI surveillance on behalf of the Ministry of Health. A number of different surveillance systems are currently in place including:'. A bulleted list follows: '• notifications of gonorrhoea and syphilis', '• laboratory-based surveillance of chlamydia and gonorrhoea', and '• clinic-based surveillance of chlamydia, gonorrhoea, syphilis, genital warts, genital herpes, non-specific urethritis (NSU), chancroid, granuloma inguinale (GI), and lymphogranuloma venereum (LGV)'. Below this is a paragraph: 'Surveillance for AIDS and HIV is undertaken by the AIDS Epidemiology Group.' The 'Notifications' section is titled 'Gonorrhoea' and contains: 'Click here for the link to the [Ministry of Health notification case definition for gonorrhoea.](#)' and 'All health practitioners notifying cases of gonorrhoea should complete the web-based questionnaire. Instructions on how to access and complete the questionnaire can be found here: [Gonorrhoea questionnaire instructions.](#)'. A red arrow points from a yellow callout box to this link. The 'Syphilis' section contains: 'Click here for the link to the [Ministry of Health notification case definition for syphilis.](#) Note that late latent and tertiary syphilis are not notifiable.' and 'The majority of infectious syphilis cases are notified by sexual health clinics who have access to a web-based REDCap database to input their data directly. [REDCap instructions for sexual health clinics.](#)' and 'Health practitioners working outside sexual health clinics who diagnose infectious or congenital syphilis cases are required to complete a questionnaire and send it to ESR for entry into REDCap (further instructions are in the form). Please select the appropriate form below.' Under 'Case questionnaires:', there are four links: '[Syphilis infectious form \(Word\)](#)', '[Syphilis infectious PDF](#)', '[Syphilis congenital fillable form \(Word\)](#)', and '[Syphilis congenital PDF](#)'. On the right side of the page, there is a 'SEARCH' box with a 'GO' button and a 'CONTACT US' section with contact information: 'Ph: +64 4 914 0700 Fax: +64 4 914 0770 Email: survqueries@esr.cri.nz'.

Which will give you the page below

Instructions for gonorrhoea notifications

Health providers are required to complete a web-based questionnaire in REDCap (data capturing software) for gonorrhoea notifications.

In order to enter details of gonorrhoea cases you will need to open your web browser and type in the URL that is at the bottom of this page.

You will be asked for your email address and a link will be emailed to you

Please note that this is a 'one time only' questionnaire link and you will not be able to edit the information once it has been saved. Clicking on the link again will generate a new record.

Please ensure that you have as much information on the case as possible before you click on the link. You will be asked for information in the following categories:

- Health provider details (your name and contact details)
- Cases details (sex, date of birth, NHI, city, DHB, ethnicity)
- Testing (location and reason), clinical presentation, laboratory results
- Risk factors (gender identity, HIV status and treatment, concurrent diagnoses, sexual behaviour)
- Management (treated as per NZSHS guidelines and plans for contact tracing)

Once you have as much information on the case as possible, please type the following URL into your web browser to be sent the questionnaire:

bit.ly/esrgono1

Type this link into web browser

NOTE: the questionnaire must be completed on-line

(NOTE: You must also have the time & the information to complete the questionnaire in one go).

The instructions tell you what information you need prior to completing the form.

Once you have read this info type bit.ly/esrgono1 into your browser which will take you to ...

Request For Questionnaire Link

Fill in this survey to receive a unique Gonorrhoea Questionnaire link

Registration number from relevant health authority
(eg, Medical/Midwifery/Nursing Council)

* must provide value

✖ Rectangular Snip
